Writing (10 points)

200-250 words

- In this review I would like to discuss my favorite childhood book "Alice in Wonderland" by Lewis Carroll. I would consider this book as one of the most influential children's books in history. Its impact and legacy on multiple generations is undeniable.
- Who haven't heard about a curious girl named Alice, a Cheshire cat with a huge grin? The genius simplicity of it, the premise, the protagonist, the supporting characters, appeals to people of all ages and generations.
- My personal favorite aspect of the book were all its clever puns and word-twisters. Contemporary to popular belief, they're not childish, on the other hand, they are wonderfully silly. The author himself was a very smart person, so it may help raise and improve the usage of vocabulary from the young age.
- In the end, I want to say that "Alice in Wonderland" is an amazing book, suited perfectly for all ages, but especially for children, who may find themselves relating to a young lady named Alice or even imagining their own trip to the Wonderland. Because where else you can find such charming magical characters and surroundings that are so similar yet so different from our own?
